

Adopt – a - Scholar

Make Opportunity Happen for one Converse student

Adopt a Scholar and make a lasting impact on the life of a Converse student.

Converse College attracts a diverse population of students to its campus. These incredible young women choose Converse to prepare them for the dynamic demands of professions, workplaces and communities that await them in the twenty-first century. However, many of these students, while rich in talent and scholastic ability, lack the resources to finance a Converse education.

The Adopt-a-Scholar program at Converse College provides much-needed financial assistance to academically qualified, but financially challenged students. The concept behind the program is to personalize the giving experience for our Adopt-a-Scholar donors. This unique unrestricted scholarship program allows concerned and engaged donors the opportunity to cultivate personal relationships and become actively involved in the life of their adopted scholar. The scholarship can be named by the donor to honor or recognize a special individual or business.

Upon committing to the Adopt-a-Scholar program, donors will receive a profile of a first-year undergraduate who will benefit from their generosity. The student will also receive a profile of the generous benefactor assisting with their education costs. Mentoring relationships between the donor and student are encouraged. To fully adopt a scholar, donors commit to a minimum gift of \$2,500 per year for the four years of the student's study. For those donors wishing to help a student with even greater financial need, an option exists to provide annual assistance at higher levels, up to the cost of a full year's tuition.

Contact

Contact Converse today and become part of this exciting and rewarding program!

Becoming involved with the Adopt-a-Scholar program is easy. Simply contact the Converse Annual Fund Office to request an Adopt-a-Scholar Agreement. Soon you'll embark on a wonderful and important relationship with one of Converse's bright new students.
