

## CONVERSE COLLEGE SMOKING AND TOBACCO POLICY

---

Converse College seeks to provide a safe, healthy, and comfortable environment in which all members of our campus community can live and work. Converse College and The American College Health Association support the findings of the Surgeon General and acknowledge that any form of tobacco use, whether active or passive, is a significant health hazard. The Environmental Protection Agency and the National Institute for Occupational Safety and Health have both classified second-hand smoke as a known carcinogen (cancer causing). The College realizes that a smoke and tobacco-free environment is a goal we can achieve, through intentional and positive steps to ensure a healthier environment. In pursuit of this goal, Converse College became a tobacco-free campus effective August 1, 2012.
