

Interior Design Computer Hardware and Software

When purchasing your computer, please make sure it has the specifications needed to run the following software required for your major. Purchasing and maintaining a subscription to this software will become your responsibility as an Interior Design major.

Note: we recommend purchasing the software when you are instructed to do so by your professors. This will save you the expense of subscription before it is actually required for class.

- **Important note: Mac laptops are not recommended. All new purchases must be PCs.**
- **Adobe Photoshop**
 - The monthly plan (check their website to confirm) is \$14.99 (if you select "Schools and Universities") single App.

PC Laptop Recommendations:

- Microsoft Windows 11 (64Bit)
- Intel Core i9 Processor
- 16 GB RAM (or more)
- 500 GB minimum Hard Drive/Storage and Solid State Drive.
*Suggestion: GB Hard drive as large as you can afford. Most new devices come with 1T (terabit) currently.
- AMD Enduro or NVIDIA Optimus discrete graphics card:
*NVIDIA GeForce RTX 3070 / Quadro RTX 5000 or an AMD equivalent GPU (eg. Radeon RX 6700 XT)
- 15" screen or more (for your comfort)
*note: *Intel Integrated Graphics onboard GPU's IS NOT* supported with some of the software used in the interior design program.
