

Important Information For South Carolina Residents – Tuition Tax Credit Available

To help ease the burden for South Carolina college students and their families, the South Carolina General Assembly has created an income tax credit for tuition paid to South Carolina colleges and universities as part of the SC Infrastructure and Economic Development Reform Act.

Information about all SC tax credits can be found [here](#).

To be eligible for the tuition tax credit, students must meet a series of requirements outlined in the legislation. The taxpayer responsible for paying the tuition must file a South Carolina 1040 form along with [Form SC I-319](#). Form SC I-319 provides a flowchart which will help families determine if they may be eligible for the tax credit. Please note the link will take you to the form for the 2017 tax year. The updated 2018 form will be published by SC DOR at a later date closer to the end of the 2018 tax year.

Please contact your tax advisor for additional information on available tax credits.
