Why is Converse raising tuition, housing and meals?

We have amended our tuition structure to offer more desirable scholarship packages to current and future Valkyries, to align with the true value of a Converse degree, and to remain competitive in the higher education marketplace. This change also allows us to better control and minimize the long-term impact of inflation and rising costs by providing more stability, with smaller, incremental increases from year to year. The Converse Commitment Scholarship will help offset this change for returning traditional undergraduate students.

What is the Converse Commitment Scholarship?

Each currently enrolled full-time traditional undergraduate student will receive a \$7,500 Converse Commitment Scholarship, which will renew every year of full-time enrollment until graduation or eight semesters of full-time enrollment. The scholarship is designed to provide crucial financial support and will be given in addition to any other financial aid the student may already receive. This change also helps keep Converse competitive when prospective students compare scholarship offers from other schools with similar tuition rates.
